## NEED TO KNOW

### FIREARMS AND AMMUNITION

It is advisable to take out full insurance for all firearms before travelling anywhere in Africa. Ensure that your ammunition is in a separate lockable container from your rifle. A temporary import/export permit is required to bring any firearms into African countries. It is advisable to apply for this permit before travelling to your Hunting Destination even though the permit can be issued on arrival. We recommend using the services of Travel With Guns ([info@twg.travel](mailto:info@twg.travel)) to assist with applying for the permit on behalf of the client.

### PERMITS AND LICENCES

Each hunter requires a hunting licence in order to hunt with Dzombo Hunting Safaris in Africa. Additional CITES and/or TOPS permits are required for certain species such as lion, rhino, hippo etc. We obtain this on our client's behalf. Lions and Rhinos each have a non-refundable US\$5,000.00 permit administration fee

### HEALTH AND TRAVEL INSURANCE

It is important to note that all hunting safaris are potentially dangerous and it is each client's own responsibility to arrange his/her medical, evacuation or personal insurance. We recommend Ripcord Comprehensive travel Protection ([www.ripcordtravel-protection.com](http://www.ripcordtravel-protection.com)) as a preferred travel insurer.
